

Shadow Box Card

1. 4" x 4" piece of Designer Paper
2. Fold in half and then in half again.
3. Unfold and Fold each corner to the center of the paper where the fold lines (center of paper)
4. Once you have all the corners folded in fold back the tips just to the edge of the outside fold.

Tip: Make sure you start with an exact square as this will make it much easier and you will get a great card every time. Also I use a bone folder to make a good crease.
