

Water Coloring

1. Stamp your image with Black Stazon Ink.
2. Squeeze your closed inkpad in the center with both hands.
3. Open the lid and you should see some ink on the inside lid of the ink pad.
4. Use your Aqua Painter to lift the ink from the small pool of color in the lid and apply to stamped image.
5. You will start with the lightest color to darker colors letting it dry well between colors.
6. Place darker ink on the side that you want the shading, most often times this is on the left side.
